## ABOUT US

Our highly skilled and experienced team are proficient in all areas of manufacture, construction, supply and installation of open space infrastructure.

Our major clients include: government organisations, national parks, councils, R.M.S., universities, TAFE institutes, schools, child care centres, cemeteries, mining companies, shopping centres, aged care and retirement centres.

Our designs are in association with independent engineers.

We have developed our own range of quality, innovative, engineered products including shade sails and structures, shelters, bridges, boardwalks, viewing platforms, restrooms, street furniture and many other associated products.
