## L.A.P.S. - LEARNING & PERFORMANCE SPACES

Shalvey Public School

## OUTDOOR CLASSROOMS AND L.A.P.S.

Our *LEARNING & PERFORMANCE SPACES* offer an innovative and 'sustainable choice' area incorporating recycled plastic wood decking, seating, performance platforms, food gardens, as well as play areas featuring art installations. Designed to assist students in gaining knowledge and values of healthy sustainable living, and to encourage performance, drama and debating in a relaxed open space. Our design team is expert in designing and creating useful and enjoyable spaces from existing unused and unattractive spaces.

## S.O.L.A. - STAFF OUTDOOR LUNCH ROOMS

S.O.L.A.'s can provide an ideal outdoor alternative to staff rooms, lunch rooms and meeting rooms. Each space is designed to suit the school's environment and offer:

- An extensive range of furniture options
- Shade options
- Ground cover improvement options

## YARNING CIRCLES

Turn that unused area into a valuable learning space that promotes cultural awareness of the traditional custodians of our land while celebrating our first nations people.

- Used for traditional ceremonies.
- Hands on educational tool for teaching indigenous culture and foods.
- Additional Outdoor Classroom Space.
- An excellent educational resource for both indigenous and non-indigenous students and teachers.

Shade Sails or Shelters can be added for protection from the elements.

## NATURAL ACTIVITY CIRCUITS

This primary school concept is designed for encouraging young students to be physically active in a fun and natural environment within school grounds. It is used during school lunch and recess, as well as assisting before and after school carers by keeping kids in care, healthy and moving.

The shape of each circuit is installed to match the available space for each school. We can cater our design to suit any area available, small or large.

Our standard Natural Activity Circuit consists of:

- Timber Bridges
- Rubber Balance Logs
- Rubber Domes
- Rubber Animals
- Sandstone Stepping Stones

The Triax System is adaptable and an alternative option for waterproof shade.

The system allows two crossing pipes to be joined permanently, without welding.

With this system the tension of the membrane cover is not transmitted to the mounting points, instead being contained within the frame itself.

Unlike the traditional membrane covers, the structural integrity of existing buildings is not compromised by the addition of a Triax structure.

### ROOF MATERIAL:

- Commercial Grade Reinforced PVC (100% UV Protection) OR Colorbond Roof

### POSTS, FRAME AND CONNECTIONS:

- Galvanised Steel Framework (Powder Coated to Select Colour)
- 10 Year Structural Guarantee

Transit Shelters, C.O.L.A.'s and Covered Walkways.

- Galvanised steel or aluminium supports
- Colorbond or PVC Roof

## SHADE SAILS

Albion Park Pool, Shellharbour

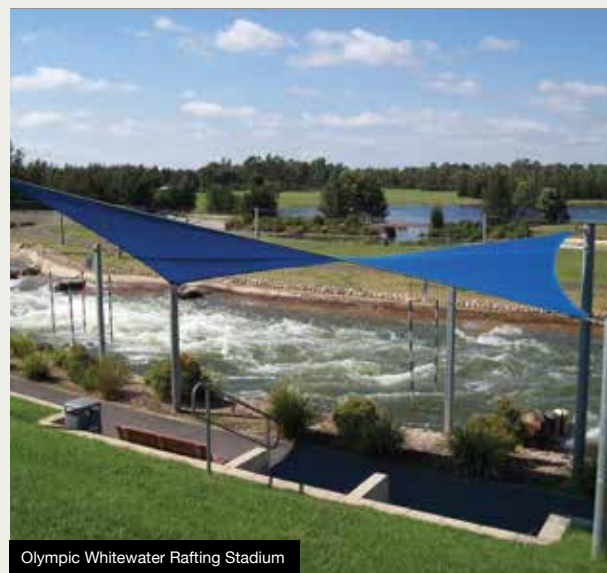

Shade sails offer the ultimate in design flexibility and represent the most lightweight, cost-effective option for outdoor shelter.

- High quality commercial grade knitted shade cloth
- UV ratings above 95%
- Wide range of colours

Our fabric has impressive UV and shade results and can dramatically reduce the heat, glare and UV radiation of any outdoor area.
