Baby Floor Piano

C5—C6 Chromatic

Baby Floor Piano

C5—C6 Chromatic

Dimensions:

Weight: 330kg

Width: 200cm

Depth : 110cm

The interactive and engaging Baby Outdoor Floor Piano still allows ‘big’ fun to be had in the park or playground. Friends and family will create some great energetic music together!

Our Baby Floor Piano, as the name implies, is our smallest Floor Piano. With 13 notes, it is more compact with a smaller footprint, yet sounds just as impressive as the larger Grand Piano.

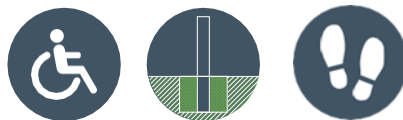

High-energy and engaging, we are sure you’ll love our fully chromatic mechanical floor pianos. Engineered to perform in all environments, these instruments will allow budding virtuosos to compose their music as they jump, run, or dance along the notes. They are fully inclusive and wheelchair accessible.

Made of heavy-duty stainless-steel construction, our floor pianos are installed flush to the ground and work equally well in schools, inclusive playgrounds and parks, and unique public spaces.

Jump, stamp, or push down on the ‘piano’ notes to play your favourite tunes, solo or with friends, for some “Big” energetic fun; the sonorous sub-surface bells will create clear, distinctive tones beneath your feet.
