## **Calypso Chimes Quartet**

Model: C4, E4, G4, C5

Calypso Chimes are popular due to their durability, beautiful finish, and clear, lively tone they produce with a lasting, resonant sustain.

These four anodized aluminium rainbow-colored chimes are individually mounted to a stainless-steel post, which can be installed into the ground, fixed to the surface (with a surface plate), or installed with an extended footer. The anodized aluminium polished finish is UV stable and will not chip, flake, or peel.

Each post has a 'mallet minder' to hold the mallet securely when not in use.

To help you create the sonic landscape of your choice, the Calypso Chimes are also available in the following arrangements within the C Major scale, known to be harmonious in any combination:

- Calypso Chimes Diatonic Set of 8 Notes C4-C5
- Calypso Chimes Pentatonic Set of 6 Notes (C4-C5)
- Individual Solo Chimes
- Calypso Quatro Post

NB: Installation through existing **synthetic grass**, repairs will be carried out but will be unable to match existing quality.

NB: Installation through existing soft-fall, repairs will be carried out but will be unable to match existing colour.
