Colossus Chimes

Model: C Major Pentatonic (C3-C5)

Colossus Chimes

Model: C Major Pentatonic (C3-C5)

Dimensions:

- Weight: 136kg
- Width: 10cm
- Height: Min 156cm
Mac 235cm

Set of 11 Chimes tuned in C Major Pentatonic (C3-C5)

Ranging from 1.6m-2.4m (63" - 95") this sound sculpture delivers powerful resonant tones encompassing the full pitch range of our Tubular Bells and Emperor Chimes.

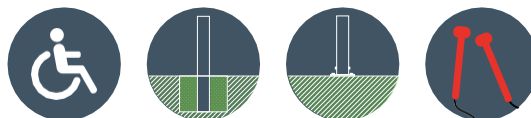

Built with durable aluminum to withstand tough environments, the center post is strengthened, and the outer tubes fixed using stainless steel security screws located top and bottom. Each bell is capped to prevent debris from entering the bell and dampening the sound.

The Colossus Chimes come complete with four metal posts, each with a large mallet attached by steel cables. There are a variety of ways that the chimes can be arranged, as the mallet posts offer a considerable amount of range. Visitors will experience the pure joy of making music and playing with sound in the outdoors as they strike the aluminum chimes with the mallets.

Colossus Chimes are great sensory, interactive items perfect for music therapy, sensory gardens, and inclusive playgrounds. Players can feel the sound resonating through their whole body when they reach out and touch the chimes after being struck with the mallets.

Product Highlights

- Large scale and very robust - suitable for heavy use environments
- Sensory Rich - perfect for inclusive playgrounds and sensory gardens
- Highly resonant
- Disabled Access / ADA Accessible
- Tall and Striking
