## Duo

C Major Pentatonic (C4-C6)

## Duo

Model: C Major Pentatonic (C4--C6)

### Dimensions:

Weight: 43kg

Length: 110cm

Depth: 85cm

Height: 85cm

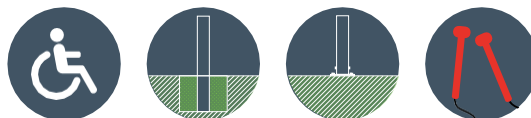

The Duo is a distinctive instrument with an ergonomic curved design. Accessible from both sides, this instrument can be enjoyed by up to four players. Tuned to the pentatonic scale, the left and right-hand sides are mirrored, and the scale is C-major, spanning 2 octaves from C4 to C6.

The Duo is built as standard with half aluminium notes and half GRP notes in the colour of purple-heart wood. Each of these materials gives a distinct sound when played: the aluminium will produce a bright, clear tone when struck, while the GRP is fast and punchy.

The curvy design is about more than just looking stylish. The wave makes it easier for individuals with a limited range of movement or players in wheelchairs to reach all the notes. Eye contact can present difficulty for some people living on the autistic spectrum, with many only able to process one sensory system at a time. The Duo was designed to allow two people to interact and make music together without the need to look directly at each other, allowing them to concentrate entirely on the auditory process comfortably and in their own space.

### Product Highlights

- Different note material options
- Designed to benefit people living on the autistic spectrum
- Offset design means no direct eye contact is required
- Disabled access / ADA
- Inclusive Play

*NB: Installation through existing **synthetic grass**, repairs will be carried out but will be unable to match existing quality.*

*NB: Installation through existing **soft-fall**, repairs will be carried out but will be unable to match existing colour.*
