Max Height: 249cm

With the largest standing over 2.5m (8ft) in height, the Emperor Chimes are the daddy of all chimes.

As a full set of six, they offer a complete C-Major Pentatonic Octave C3-C4 (also available in a harmonic group of three).

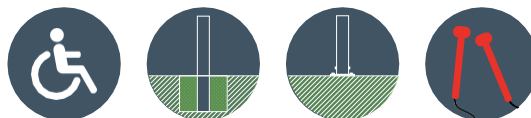

Striking the chime with the palm of your hand or fingertips just about anywhere along the tube produces a soft, velvety rich tone that you not only hear but can feel as well.

The harder you strike, the more it will vibrate, creating a louder sound with such resonance you can feel the vibration through your entire body.

It is an amazing experience, and you really do feel like you have been bathed in sound!
