Grand Marimba

Model: C Major Pentatonic (C3-C5)

Grand Marimba

Model: C Major Pentatonic (C3-C5)

Dimensions:

Weight: 50kg

Width: 131cm

Depth : 102cm

Height: 105cm

Our Grand Marimba is an outdoor musical instrument popular with schools.

This substantial outdoor musical instrument produces a strong, deep, resonant sound – perfect as school playground equipment for music therapy sessions and creative, inclusive playgrounds.

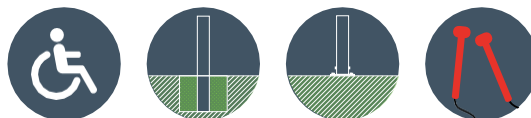

The notes used on the Grand Marimba are made of hardwood and are equipped with individual resonator tubes on the underside. The resonator reflects and projects the sound back to the player resulting in more volume and a brighter sound. With no wires or strings, each note is individually and securely attached to the resonators for maximum vibration with incredible tones and resonance.

To make the instrument accessible to all, the height, angle, and space underneath the instrument are such that a wheelchair user can enjoy playing the instrument comfortably.

The stylish contemporary stainless steel frame is suitable for ground or surface fixing.
