## Papilio Bells

Model: C Major Pentatonic (C4-C7)

## Papilio Bells

Model: C Major Pentatonic (C4-C7)

### Dimensions:

- Weight: 45kg                      Width: 245cm                      Depth: 81cm                      Height: 111cm

Papilio Bells – with a name derived from the resemblance of its elegant shape to that of the Butterfly - is a tubular bell-type metallophone constructed using notes of anodized aluminium tubes, suspended by stainless steel cables and supported by a stainless steel frame.

Tuned in the Key of C-Major, the pentatonic nature of the instrument means there are no wrong notes, and any combination of sounds is pleasant.

The tonal range is from Middle C to C7, spanning 3 octaves. The Papilio Bells can easily be played by four players, spanning over 2.4m.

### Product Highlights

- Pentatonic Tuning - No Wrong Notes!
- Wide spanning - Easily played by four players
- Suitable for ADA Accessible Projects/Parks
- Inclusive Playground Equipment
